WIOA Success Story

Carly B.

- ▶ Carly's journey with the WIOA program began in May 2024 while working toward her GED at Edgefield Adult Ed. With transportation support from WIOA, she successfully completed her GED and received a \$200 incentive. Unsure of her next steps, she met with Career Coach Crystal Cheatham, explored career options through a labor market session, and chose to pursue Clinical Medical Assistant (CMA) training. Through WIOA, Carly attended Greenwood Medical Academy with full coverage of tuition, school fees, exam fees, uniforms, and transportation. By the end of December 2024, she earned her certification and passed the NHAA exam to become a licensed CMA. WIOA further supported her with a recommendation letter, leading to her new role as a CMA in the OB/GYN Department at Rural Health Services. She started on February 24, 2025, making \$18 per hour. Grateful for WIOA's guidance, Carly is excited to grow in her career and embrace the future ahead.
